-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 9-11, 17 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Hellwig (U.S. Patent 4,630,961).

Hellwig discloses an interchange having curved portions for each traffic lane in four directions (Figure 2c, for example). There is at least one substantial right turn exit lane (1, 6). Each direction includes this right turn exit lane configuration. There is at least one merging area for traffic wishing to change a direction of travel similar to a left turn (3, 4). This merging area becomes the second exit lane. Again, each direction of traffic lane includes this. The lanes (3, 4) pass under lanes of traffic coming from the right hand orthogonal direction as the left turn/second exit lane makes a substantially 90 degree left turn.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 6-8 and 14-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hellwig, as applied above.

Hellwig does not teach the service area surrounded by traffic lanes; however, it is very well known to use service areas surrounded by traffic lanes (as done on turnpikes, for example). It would have been obvious to one of ordinary skill in the art at the time the invention was made to have used an empty space surrounded by traffic lanes in Hellwig in order to provide service for vehicles and drivers, as is well known.

Response to Arguments

Applicant's arguments filed August 9, 2005 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary Hartmann whose telephone number is 571-272-6989. The examiner can normally be reached on Monday through Thursday, 9am-7pm.
